1. Objective and Scope

1.2 Objective

The New Product Approval Policy provides the framework and operational guidelines to implement the new product approval process for the Ujjivan Small Finance Bank.

The process has been updated to include the new verticals and new suite of products which will be offered.

The document provides guidance on the following areas pertaining to New Product Conceptualization & Approval:

- A Comprehensive & Updated Product Program Template keeping in mind the multi vertical and multi product environment of the SFB
- New Product Approval Process through a PAC (PAC)
- Key Roles and Responsibilities of Stakeholders
- Product Approval Governance & Framework

The objective of the above framework is also to institutionalize the introduction of new products or make major or minor changes to the products and services offered by Ujjivan SFB in line with the approved Strategy & Business plan.

This is to ensure that all the members of the organization involved in marketing, design, delivery, servicing, risk management, sales, profitability and monitoring the performance of the product are actively involved and approve the process of new product introduction or any major changes proposed.

The Product Program template has been updated & re-designed keeping the above mandatories in mind and will also be the base document used by the Marketing function to design and execute relevant & impactful marketing programs when the said new product gets launched.

The Bank will not discriminate on grounds such as gender, age, religion, caste and physical ability when offering and delivering financial products.

2. Scope and Coverage

This policy will be applicable to all existing as well as new products proposed to be launched and will be implemented across the business verticals of the Bank viz.- Branch Banking, Micro Banking, MSE, Housing, Vehicle finance, Personal Loan, Digital Banking besides including third party products offered by Ujjivan SFB's Insurance & Alliances partners.. "Applicability of the policy shall be extended to all verticals formed from time to time", not limited to the Business and Products alone.

Keeping in view the need for transparency and in the interest of the customers to whom the products are being marketed / referred, the bank shall disclose to the customers, details of all the Service charges/ other fees (in any form) received, if any, from the various mutual fund / insurance / other financial companies for marketing / referring their products.

The policy sets out a formal governance framework that covers the approval process for:

- a) New Product Proposals
- b) Product Modifications
- c) Product Discontinuation or Recall

3. Definition of New Product / Services

2.1 New Product

A new Product definition includes a new product, service or a combination of product and service.

A product is considered new, if it meets any one of the following criteria:

- New to the Bank
- New to the marketplace and has not been introduced by any financial institution / SFB
- Product offered in a new geography or different regulatory regime (if applicable)
- Products offered by Ujjivan SFB's Third Party Products and Alliances Partners

4. New Product Approval Principles

The New Product Approval Policy will be governed through the following Product Approval Principles. PAC shall be established consisting of all critical functional stakeholders who shall collectively review & approve the proposed product programs or modifications.

The protocols followed by the PAC (PAC) shall but not restricted to be:

- The new product approval process shall cover every consideration to be taken into account while dealing in new products or material changes to existing products.
- The PAC shall follow a collaborative and close knit cross functional working, where the Business team along with the Product Management team who are responsible for introducing/recommending New Products shall assume a symbiotic ownership including preliminary identification of market opportunities, latent potential and eventually jointly ensuring the overall financial health of the proposed program or service.
- Legal, Risk and Compliance functions shall also play an active role as individually defined below. The Strategy function shall validate whether the new product offering fits into the annual approved business plans besides validating the top line and bottom line of the new products.

To ensure Approval process for all new products by the Compliance Department prior to their introduction for identifying, documenting and , assessing the compliance risks associated with banks'

business activities and products, as The Chief Compliance Officer being a member of the Product Approval Committee to ensure that the new products / processes have clearance from relevant Regulatory guidelines perspective.

- Risk and (Credit applicable for asset products) will evaluate the risks, processes and ensure it is critically evaluated and proofed.
- Service Quality will validate overall processes to ensure they meet desired customer satisfaction indices, delivery standards & intended TAT's.
- Legal shall validate the legal risks in the Products while operations shall validate the operational feasibility on implementation of the Products.
- The new product approval process should thoroughly discuss issues like Business estimates & volumes, Market & revenue share projections & realism, Product profitability, break even ratios, regulatory compliance, Risks (all types), availability of adequate and appropriate organizational resources, service quality, availability of adequate IT resources, & internal tools, expertise to understand and monitor the products that are to be addressed before a final decision is made.
- The primary route for product approval shall be through the circulation of the Product Program which is attached with this policy, that is initially circulated as per stipulated time frames, and then discussed and ratified by the PAC (PAC) in its meetings
The PAC meeting may be convened as and when required by the convener of the committee i.e. Manager – Product, Micro Banking (For Assets) , National Product Manager (For Liabilities). The Chairperson: Head- liability for liabilities and Head of Assets& Rural banking for Assets of the Bank. In their absence, they may nominate a representative to the PAC meetings.

5. PAC – Role & Deliverables

The PAC (PAC) will act as a central pan organizational forum for introducing, any review of new products, including any amendments to existing products and services thereto.

The PAC committee will review the list of Products approved and not rolled within 30 days of approval. The objective of the PAC is to ensure that a comprehensive and cross functional view of all market factors, competition, product significance, revenues & profitability are duly ascertained before the launch of the new product or consequent modification of any existing product.

Products should have a roll out date. The concerned stakeholders of the PAC should be informed after rolling out the Products approved.

The same shall be detailed comprehensively in each and every recommendation provided by the PAC through a detailed analysis of the Product program developed for new product introduction or modification.

A quarterly product update with the MOM of latest PAC meeting will be sent to the Customer Service Committee of the Board by respective product managers & Business heads.

The constitution of the PAC will be as under:

SI No	Designations
1	Head of Liabilities (For Liabilities Product)- Chairperson
2	Head of Micro Banking (For Asset Products)-Chairperson
3	Head Product/Business of respective Asset & Liability vertical presenting the Product
4	Head of Operations
5	Chief Compliance Officer (Permanent Invitee)
6	Chief Risk Officer
7	Chief Credit Officer
8	Head of Legal

Optional Members (Product Specific):

SI No	Designations
1	Chief Technology Officer
2	Head of Digital Banking
3	Head of Customer Experience

Head - Liability for liabilities and Head of Assets and Rural banking for Assets shall act as the chairperson of the PAC meeting. In his absence, he may nominate a representative to the PAC meetings.

The PAC shall meet once every 2 weeks on the 1st and 3rd Saturday of the month to review outstanding product management matters, discuss any open issue or as and when required and review products and their management. In some of the cases where PAC members are not available a mail shall be forwarded to all the PAC members and approval shall be sought.

In the event of an exceptional situation, (like sudden recalling, culling, modification, immediate introduction of a product etc.), the PAC will be convened to discuss the urgent matters if any.

The Head- Liability & Head of Assets and Rural banking at his discretion can request other special invitees like Convener of Credit Committee (Head of Credit - Micro Banking & Rural Banking) wherever Asset Products are being presented to PAC). Invitees as deemed necessary by the committee.

The Product Program shall be developed in the predefined format & template given in the **Annexure 1**.

The content of Product Program may vary depending on type of product like Liabilities, Assets or Third Party products but will follow largely the product program template. In the case of Asset products, Credit policy is an integral part of all existing individual lending products.

A separate document for credit policy which includes credit process, assessment parameters, provisioning, collection etc. for asset products will form an addendum to the Product program template.

Note:

1. Whenever Product Programs related to Treasury are discussed, an authorised representative from Treasury shall be involved.
2. Whenever Product Programs related to introduction of credit products, and in cases where changes to existing products are around underwriting standards, credit documentation and collaterals, the Chief Credit Officer shall mandatorily attend as a special PAC member for review and approval of the Program. No Asset Product program can be approved without the Chief Credit Officer's approval.
3. The PAC representative/ review department shall be the business unit to which the product Program pertains to.
E.g. If the Program pertains to the Unsecured Credit, the Business Head (or nominated official) of Unsecured Business shall be part of the PAC and the Unsecured Loans unit shall review the Program along with Chief Credit Officer

6. Executive Summary Product Approval Process

The Product Approval Process will be applicable to all products launched by the Bank across its verticals

The key steps involved in New Product Approval Process are as follows:

6.1. Product Initiation and Development Stage

- a. The initiation stage involves conceptualization of a new product or an extension of an existing product by the designated Product Manager (PM) from the product team.
- b. The PM shall carry out a detailed market assessment to understand the feasibility of launching the product. The PM shall analyse various factors such as customer needs, market demand, comparison with peer banks and a SWOT (Strengths, Weaknesses, Opportunities and Threats) analysis to provide a comprehensive case for the Bank to launch the product. Syndicated Market Research studies or Consumer In sighting carried out by the Marketing function along with Business inputs will also be weighed in while preparing a program proposal.
- c. In the product design & development stage, the Product Manager (s) will coordinate and collaborate with support functions and crucial stakeholders like Business & Distribution (including Branch and Front Line Staff Leaders), Strategy, IT, Risk, , Accounts and Operations to develop and institutionalize functional processes key to the successful launch & operationalizing of the product. The approval discussions pertaining to the Product will be documented in a final 'Product Program' by the Product Manager and forwarded to the PPAC members for review and comments and will follow the program template diligently.
- d. It is recommended that if the product is complex like an asset product from the MSE vertical, a "Product Drafting Committee" led by the Product Proposer can be formed. It will have one member from key functions like Business, Finance, Risk, Operations, and SQ etc who will collaborate in drafting the part of the program relevant to their function.

- e. **It is recommended that the first full version of the program be discussed between Product and Business to fine tune any open or other issues before circulation to the larger audience in the PPAC for approval discussions.**
- f. The Product Program will NOT be put up for discussion if it is considered incomplete in any respect.

6.2. Product Review, Resolution, and Roll out Stages

The Product Program shall be circulated to the PAC members by the Product Manager, at least 7(seven) days before the scheduled PAC meeting, to enable them to have quality time to review the Program and seek any detailed pre-clarifications about the product.

These clarifications (if any) shall ideally be closed prior to the PAC meeting by the Product Manager with the clarification owner and if not resolved & confirmed on e-mail, then the same shall be discussed in the PAC meeting, and if all the members are in agreement, the Program shall be approved at the PAC

The USFB Product Program (PP) should contain as below:

Asset Products

1. Introduction
2. Market Opportunity
3. Target segment – Straw Profile and Hook
4. Competition
5. Our Differentiation (Unique Value Proposition)
6. Target Market - Customer Profiling
7. Product Design
8. Pricing
9. Credit Policy
10. Credit underwriting
11. Sales Process
12. Collection
13. Fraud Control
14. Operations process flow
15. Customer Service - channels
16. Compliance (KYC & AML)
17. Risk & Mitigant
18. GL / Accounting Entries
19. Legal - customer agreement and terms & conditions
20. Account opening forms
21. Document requirement
22. MIS and Financials
23. Business and Product profitability

In the case of deposit product, points 9, 10, and 12 will not be required.

PSL Categorization and the data field as well as process for the same should also be included in the UPP (Assets)

The minutes of the PAC meetings shall be recorded as per **Annexure 2**. The Product Manager will be responsible for incorporating the modifications suggested by the PAC / Management team members in the Product Program and shall update the versions accordingly.

For products in which modifications are being proposed, the initiating department will communicate the change to the Product manager who shall first clarify and resolve the same and then incorporate it in the program with noting's. . If the recommendations or clarifications require a cross functional discussion due to impact areas or otherwise, then the same shall be put forward to the PAC for resolution and is still unresolved shall move to the Management Team for a final decision.

.All Product Programs put up to the PAC shall have a unique identification code including the introduction & discussion date. An e copy of the latest approved version shall be hosted in the relevant repository and shall be accessible to all PAC members with controls.

6.3. Product Maintenance Stage

The minutes of the meeting (MoM) of the PAC shall be numbered and shared with the Management team for information. In the event of NO new products or modifications done for a particular month the same shall be recorded and informed to the Management Team as a matter of record.

The Product Manager would also maintain a tracker for a periodic review of Product Programs and would coordinate with respective Businesses and other functional teams for periodic review of product Program and compliance to operational procedures. The template for the tracker is given in **Annexure 3**.

6.4 Product Modification

All existing and introduced products could come for modifications as a result of internal policy or external environmental events. In the case of minor modifications which are not considered material in nature, the Product Manager will circulate the same via email to the original approving authority and the approved version would then supersede the earlier one.

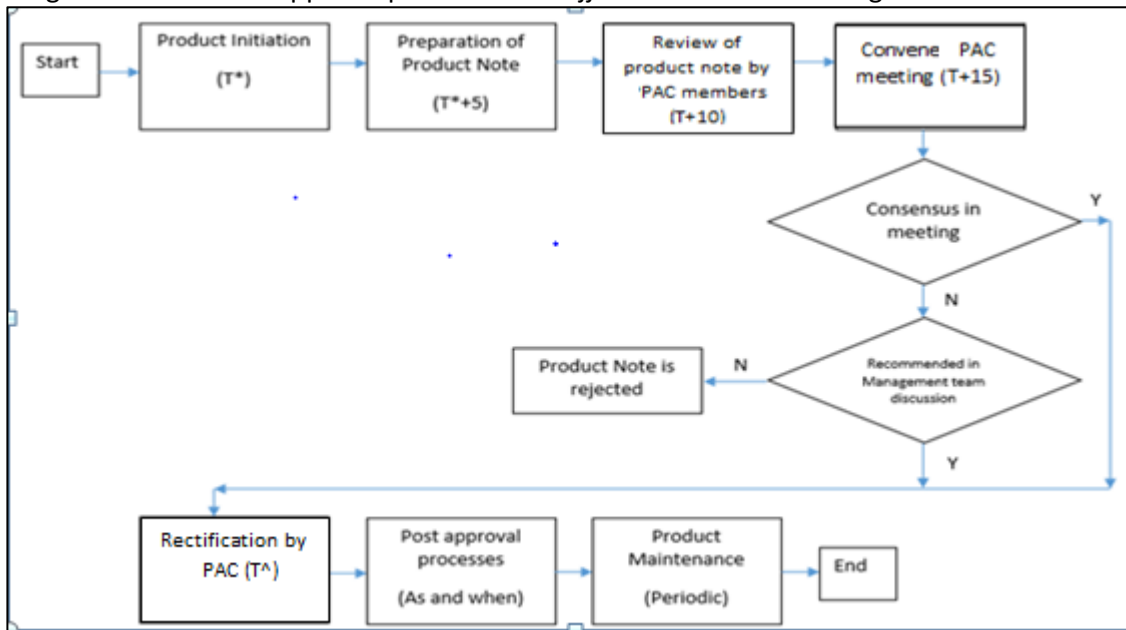

If the modification is considered major and involves significant impact, then the revised program with desired modifications will be put up to the PAC for necessary action.

6.5 Annual Review

The PAC shall conduct an annual review of all new products introduced in the last month of the FY or closer to budgets finalization period to critically evaluate Performance versus Budgets. The Policy shall be reviewed on annual frequency or as and when there are Statutory or Regulatory changes effect the Policy.

7. Product Approval Process

The Product Approval Process commences with the idea of conceptualizing and developing of the product Program. The Product Approval process at the Ujjivan SFB has been categorised into the following stages:

T*- Date on which Product Manager initiates the Program

T^- Date on which product was ratified by PPAC Members

Table 1: High Level Product Approval Process
