Entire Floating provision of ₹250 Cr continues to be on books & can be utilized for making specific provisions in future during extraordinary circumstances, with prior approval from the RBI

Mr. Ittira Davis, MD & CEO, Ujjivan Small Finance Bank said, “FY23 started on a high note and ended on even higher note as Q4FY23 marked several milestones in the Bank’s history, set benchmarks and achieved success on multiple fronts. We delivered an all-round performance and met all our guidances. On one hand, we made new benchmarks for growth with all-time high disbursements and on the other hand asset quality continued to show sequential and sustained improvement. Our deposits continued to outpace asset growth crossing ₹25,000 crore mark. We had a negligible credit cost for the year on the back of sustained collections – reduced slippages and strong recoveries. While, slippages have normalised towards the year-end, recoveries may continue for a while. Our continued strong collections will ensure a sub-100 bps credit cost in FY24 as well. We picked-up our branch expansion during the quarter with 31 new branches and will continue it in the new fiscal with around 100 branches. Among various other achievements on digital side, most remarkable one is the launch of our vvv* based mobile banking app – “Hello Ujjivan” targeting non-tech savvy customers. The app has already received several industry accolades including Aegis Graham Bell Awards 2022 for Innovation in Consumer Tech and has seen 1.3+ lakh downloads. We would continue to leverage our digital capabilities in addition to brick and mortar.

On the merger with our promoter, we have filed our application with Honourable NCLT, Bengaluru and are awaiting observations/ communication. We will keep the stakeholders informed on the same.

In FY24, we would be building on the base of FY23. The contribution of secured products in growth would see improvement as our strategy/ execution for respective verticals take clearer shape. Overall, we remain confident of the business growth (>25% gross loan book growth) and profitability (~22% RoE). We remain committed to our journey towards becoming a leading mass-market bank and contributing towards digital inclusion in India.”
