The bank will inform customers that the first point for redressal of complaints is the Bank itself and that complainants may approach the Integrated Ombudsman only if the complaint is not resolved at the bank level within a month. In case of inability to handle the complaint within the Bank, appropriate measures will be taken to educate and guide the customer to approach the external avenues as under:

- BO Scheme of RBI at Regional level follows a fast track approach toward resolution of customer complaints with respect to services rendered by banks. The details of the Scheme along with contact details to approach these offices will be available in the branches/ URCs and also displayed on the website of the Bank.

Annexure 1: Policy to avoid mis-selling**1. Introduction**

Ujjivan Small Finance Bank (USFB) believes in being fair with its stakeholders. This policy seeks to document the practices and procedures to be followed by the Bank's employees when selling any products/ services.

Mis-selling refers to the deliberate, reckless, or negligent sale of products or services in circumstances where the contract is either misrepresented, or the product or service is unsuitable for the customer's needs. It also refers to making any deliberate or false statement made by the selling of products/ services.

This policy seeks to lay down standards for suitable recommendations/ sales to customers/ stakeholders. This policy shall also apply to any customer communication regarding all products and services offered by the Bank or for which it acts as an agent, whether provided across the counter, over phone, by post, through interactive electronic devices, on internet or by any other method.

2. Objectives of the Policy

The following are the objectives of the Policy:

- Ensure that customers are well-informed about the product features, applicable terms and conditions, charges and that they shall assume principal responsibility of safeguarding their interest before availing any products or services from the Bank.
- Address risks to customers stemming from insufficient, false or misleading disclosure, conflicts of interest, mis-selling and mis-representation.
- To address the issues of suitability and appropriateness of customers while selling any products or services
- To ethically disclose the terms and conditions of all products and services fairly and transparently before selling any products/ services.

3. Applicability

The policy is applicable to all its employees, business correspondents, outsourced partners, who are engaged into financial activities, channel partners providing third party products such as insurance companies and officers across all branches/ business segments of the Bank involved in banking and para-banking activities including sourcing of Pension products. While the provisions of this policy are directly applicable to most of the staff that are facing clients, all employees of the Bank shall be guided by the principles of this policy.

4. Governance Structure

The Customer Service Committee of the Bank reviews the customer complaints on mis-selling of products/ services and implements high standards of customer service to ensure that suitability and appropriateness of customer is factored in, before marketing any product/ service. The Committee also seeks to:

- Provide a framework for ongoing review of ‘suitability and appropriateness’ at each stage and incorporate minimum restrictions on customers/ specific transactions depending on the risk categorisation of the customer
- Define the authorities required to be involved in prescribing additional safeguards, disclosures and documentation for a particular customer/ transaction if necessary.
- Prescribe the process and procedures to be followed in case of customer disputes on account of mis-selling of any product/ service
- Note the customer claims/ litigations against the Bank relating to any product/ service whether owned or distributed

Additionally, the Product & Processes Approval Committee shall approve any new products/ services after ensuring that there are sufficient safeguards to prevent mis-selling. The Committee shall approve the product matrix defining the various criteria for which various categories of products can be sold to the relevant customers.

In order to ensure avoidance of mis-selling of products and services, the bank shall arrange a sample check on whether the customers are fully informed on the features of the products/ services and associated charges/ interest rates. In this respect, the Bank may adopt tele-verification of customers on sample basis for select products and services that are prone to mis-selling, including third party products.
